Research Papers

Genotoxic effects of 2-amino-3,4-dimethylimidazo(4,5-*f*)quinoline (MeIQ) in rats measured by alkaline elution
J.A. Holme, G. Brunborg, J. Alexander, B. Trygg and E.J. Søderlund (Norway) 1

Metabolic activation of food mutagens by liver and lung enzymes from rats, pigs and oxen
K. Tjøtta and T. Aune (Norway) 7

Mutagenic activity of 6-azido deoxyhexoses and azido alcohols in *Salmonella typhimurium* and its inhibition by a structure-similar carbon source in the medium
M. Juricek, P. Gruz, J. Veleminsky, J. Stanek, K. Kefurt, J. Moravcova and J. Jary (Czechoslovakia) 13

In vitro mutation of *Haemophilus influenzae* transforming deoxyribonucleic acid by ultraviolet radiation at −70°C
J.L. Muñoz-Sánchez and E. Cabrera-Juárez (Mexico) 21

X-Ray induced translocations in premeiotic germ cells of monkeys
P.P.W. Van Buul (The Netherlands) 31

Qualitative differences in the spectra of genetic damage in 2-aminopurine-induced *ad-3* mutants between nucleotide excision-repair-proficient and -deficient strains of *Neurospora crassa*
F.J. de Serres and H.E. Brockman (U.S.A.) 41

Chromosome aberrations, micronuclei and sister-chromatid exchanges (SCEs) in rat liver induced in vivo by hepatocarcinogens including heterocyclic amines
S. Sawada, T. Yamanaka, K. Yamatsu, C. Furihata and T. Matsushima (Japan) 59

Effects of caffeine and cycloheximide during G_2 prophase in control and X-ray-irradiated human lymphocytes
J. Pincheira and J.F. López-Sáez (Chile, Spain) 71

Induction of multilocus lesions by UVC-radiation in mouse L5178Y lymphoblasts
H.H. Evans, M. Ricanati, C. Di Salvo, M.-F. Horng and J. Menci (U.S.A.) 79

Low-level chemiluminescence from *Drosophila melanogaster* fed with chemical mutagens polycyclic aromatic hydrocarbon quinones and a carcinogenic bracken fern
T. Sato, H. Inaba, K. Kawai, H. Furukawa, I. Hirono and T. Miyazawa (Japan) 91

Characteristics of mutagenesis by glyoxal in *Salmonella typhimurium*: contribution of singlet oxygen
H. Ueno, K. Nakamuro, Y. Sayato and S. Okada (Japan) 99

Iron is the intracellular metal involved in the production of DNA damage by oxygen radicals
A.C. Mello-Filho and R. Meneghini (Brazil) 109

The involvement of reactive oxygen species in the direct-acting mutagenicity of wine
R.R. Ariza and C. Pueyo (Spain) 115

Repair of exogenous (plasmid) DNA damaged by photoaddition of 8-methoxypsoralen in the yeast *Saccharomyces cerevisiae*
N. Magaña-Schwencke and D. Averbeck (France) 123

A BrdU pulse double-labelling method for studying adaptive response
S.Z. Aghamohammadi and J.R.K. Savage (Great Britain) 133

Strand-specific mutation spectra in repair-proficient and repair-deficient hamster cells
P. Menichini, H. Vrieling and A.A. Van Zeeland (The Netherlands, Italy) 143

A re-examination of the genotoxicity and carcinogenicity of azathioprine
H.S. Rosenkranz and G. Klopman (U.S.A.) 157

Comments on the paper 'A re-examination of the genotoxicity and carcinogenicity of azathioprine (Rosenkranz and Klopman, 1991)
C.E. Voogd (The Netherlands) 163

Obituary

Ernst Freese (1925–1990)
J.W. Drake (U.S.A.) 165

Research Papers

Cytogenetic characterization of radiosensitive mouse mutants
P.P.W. Van Buul, A. Tuinenburg-Bol Raap, H.J. Goudzwaard, C.M.J. Seelen, C.V. Beechey, A.T. Natarajan and A.G. Searle (The Netherlands, U.K.) 171

Adaptive response in irradiated human lymphocytes: radiobiological and genetical aspects
E.K. Khandogina, G.R. Mutovin, S.V. Zvereva, A.V. Antipov, D.O. Zverev and A.P. Akifyev (U.S.S.R.) 181
In vitro mutagenesis as a result of ^{60}Co-γ-ray-induced base damage
E. Turkington and B.G. Strauss (U.S.A.) 187
Genetic assay of misincorporation
R. Maldonado-Rodriguez, P.H. Driggers and K.L. Beattie (U.S.A.) 201
Influence of neighboring base sequence on mutagenesis induced by in vitro misincorporation in the *lacI* gene of *Escherichia coli*
R. Maldonado-Rodriguez, M. Espinosa-Lara and K.L. Beattie (U.S.A.) 217
In vitro effects of L-ascorbic acid (vitamin C) on aryl hydrocarbon hydroxylase activity in hepatic microsomes of mice
C. Kiyohara, M. Omura and T. Hirohata (Japan) 227
Antimutagenicity of propionic acid bacteria
L.I. Vorobjeva, T.A. Cherdinceva, S.K. Abilev and N.V. Vorobjeva (U.S.S.R.) 233
Clastogenic effects of bleomycin, cyclophosphamide, and ethyl methanesulfonate on resting and proliferating human B- and T-lymphocytes
K. Miller (F.R.G.) 241

Contents, Vol. 251 (1991) 253
